Exotic Finish

There are 4 new Exotic Finish Cards and 1 replacement card for *Tight Race*. Remove and recycle the original *Tight Race* card from your base game.

Setup

Shuffle the 5 new cards into the Exotic Finish deck.

Set the Exotic Finish Arrow Tokens aside for now. They can be used to mark rows on the Race Track Board as Exotic Finish Cards are revealed.

For example, when the *Middle Trifecta* is looking for 3 horses to move 9 or more spaces, use the blue arrows to mark the 9th row on the track and the *Middle Trifecta* card as a quick visual reference.

VIP Cards

There are 14 new VIP Cards that can be used in every game of *Ready Set Bet* and 2 promotional ***analog*** cards that can be used only when a House player is running the race. You will need to remove these 2 promo cards from the deck for any game where you are using the app to run the race. They are marked with the € symbol.

Setup

Shuffle the new VIP Cards being used into the VIP deck.

Set the new Bonus Bet Tokens to be gained when a VIP Card calls for them alongside the extra Bet Tokens from the base game.

Bifecta Bet Tokens

These Bet Tokens are used to bet on any horizontal line between 2 different Bet Spots. They *do not block* and are not blocked by normal bets above and below them. They *do block* each other and cannot be bet on the same spot.

Prop-spects

Your bets on Prop Bet Cards pay or lose independently of this card, and this card pays independently of whether or not you bet on Prop Bets.

No Shows

A No Show horse does not finish in 1st, 2nd, or 3rd place.

Losing Street, Lucky Street, Exacta, Last Place Bet, and Box Bet

These are a new type of Bet Token that are placed on 1 horse on the Bet Board. They are not placed on any of the Bet Spots on the board. They do not block each other from being placed—any number of these can be bet on the same horse.
